

Today
Our Destiny.
Way Of Peace.
Money Scarcity.
Stabilizing Silver.

What has gone wrong with the earth today? Have little things concerning our nation, which we have been told, been at least a little more than some of our number, but equally mysterious? For instance, the Pacific coast is in a state of confusion. The Pacific coast is in a state of confusion. The Pacific coast is in a state of confusion.

Those who believe that whining and talking will bring peace are deceived by actual happenings. Japan will do as she pleases in China—and the Chinese will do as she pleases in Manchuria. The taking may not be long.

British Millers Oppose National Government's Wheat Quota Scheme

EXPORT TAX PROPOSED AS COMPROMISE

Fifty Per Cent. Preference for Dominion Products Suggested

LONDON, Dec. 7.—British and Irish millers are opposed to the National Government's wheat quota scheme, the Daily Mail says today. They have recommended, in its stead, an export tax of four shillings per quarter (equal to 10 per cent. on foreign wheat and four shillings per sack on flour). In so doing, the Dominion would receive a 10 per cent. preference.

The News Chronicle also says today that it is probable that the millers will inform the Ministry of Agriculture the same wheat quota scheme. The millers who will consider the proposal will make recommendations to the Ministry in a letter to the Ministry.

SMUGGLING OF LIQUOR INTO U.S. WANES

Canadian Export Act Has Checked Operations, Washington Says

WASHINGTON, D.C., Dec. 7.—Liquor-smuggling operations along the Canadian border have been materially checked since the amendments to the Canadian Export Act, according to a report made today by G. Aaron Youmans, assistant attorney-general.

During the past year, 29 vessels of British registry were seized on charges of liquor running. Three-quarters of these seizures were made on the north-eastern coast of the United States.

The British Embassy in Washington, D.C., has been informed that the Canadian Government is now checking the operations of the liquor runners. Reports indicate that the chief occupation of the liquor runners is smuggling liquor into the United States.

With each purchase of liquor, the runner must receive a certificate from the Ministry of Agriculture. The runner must also be able to show that the liquor is for export to the United States.

It is believed there is no intention, at least at the moment, of placing an embargo or even a tariff on imported liquor.

Speeds To Death

Racing through the air, death claimed another plane pilot, Lowell R. Bayles, of Springfield, Massachusetts, killed at the Detroit airport last Saturday. He plunged to the ground "when something went wrong," and his plane burst into flames. Bayles is a lieutenant in the U.S. Navy, and his ship, a G.B. monoplane powered with a waco motor.

Lowell R. Bayles Falls to His Doom at Detroit Air Trials

DETROIT, Mich., Dec. 7.—Lowell Bayles, Springfield, Mass., speed flyer, was killed Saturday when his plane struck the ground and burst into flames while he was making an attempt at the world's record speed.

Bayles, who earlier in the week had attained a speed of 281.9 miles an hour in the third attempt at the record, was the first to fly at 300 miles an hour.

He was about 15 feet up in the air when the engine stalled. He was killed when the plane struck the ground and burst into flames.

Bayles came from several weeks ago to try to better the record established in recent years by Capt. W. V. Wright, who flew at 274 and 281 miles an hour.

Bayles' ship was a G.B. monoplane powered with a waco motor. It was a single-engine, single-seat plane.

BABY'S HANDS ON AUTO HORN SAVE 4 LIVES

Children Waiting in Car Are Overcome by Deadly Monoxide Gas

MONTREAL, Dec. 7.—A small four-year-old boy, waiting in the car for his mother, saved four little children from death by carbon monoxide gas "he saved night."

Through gradually building concentration, one of the children, despite a policeman's warning to stop, continued to sound the horn. The policeman opened the door of the automobile and a baby boy pulled into his arms, overcome by the poisonous fumes.

The children, Jeanne D'Arc, Marie, Alice and Edward Jarry, aged 10, 8, 6 and 3 years were waiting in the car for their parents who had gone shopping.

KEEPING FAITH WITH INDIA

Premier MacDonald says the collapse of the round table conference will not halt the process of establishing a federal governmental system in India. That as a matter of course. Having undertaken to introduce a system of self-government, which the Indians can develop as they acquire the capacity to exercise it, faith is to be kept with them, despite the Gandhi attempt to discredit it and block the plan. That will not be good news for the Mahatma. Nothing would serve his purpose better than the British Government should drop the idea of thus putting him with "evidence" of its faithlessness and tyranny. His zeal to reproduce in India the conditions of the British Empire will not doubt be sharpened by the disappointment of his very evident hope to defeat the project, since giving India the framework of a constitutional system will go some way to deflate his prestige and discredit his extremist propaganda.

NO CROP, NO BONUS?

Delegates at the annual meeting of the Wheat Pool in Calgary asked the Dominion Government to broaden the bonus scheme so as to include farmers who moved wheat last year but had no crop to harvest. They suggested that the bonus should be paid to cropless farmers on the basis of twenty per cent to the acre, giving them at least a minimum of one dollar bonus money for each acre sown.

That should have been the arrangement in the first place. It would be only tardy justice to widen the scope of the plan now and to give this measure of assistance to those who sowed but did not reap. There is no discoverable reason a grower whose crop was killed out or dried out should get nothing, while a neighbor who has a crop to sell is also given a government subsidy.

If the grower who has no crop needs the five cent bonus, he does need, surely the one who was denied a crop needs the bonus even more. It is a fair proportion of the growers whose crops failed in one way or another, it would be fair to give them the same assistance as bonus money than to charge it all up against them as relief.

"To him that hath shall be given" the five cent bonus is sound public policy at present prices; but it is not good business or good reasoning to penalize the grower who tried to raise a crop but was beaten by the weather.

THE WABASH

The Wabash railway has gone into receivership. This is one of the most important railway systems in the eastern United States, and one of the oldest. Its trains for many years operated over Grand Trunk lines across the southern peninsula of Ontario, giving a service notable alike for speed and excellence.

What has befallen it is typical of the loss of business and revenue that has been the common experience of United States railways in recent years, as of railways in Canada. But while Canadian railways operate largely through territory that is sparsely settled and partially developed, the Wabash served one of the most densely populated, thoroughly developed and wealthy sections of the United States—and of Canada.

The slowing down of business during the last two years, and the fall in freight traffic, would of course have been a hard blow to the railways of both countries in any event. But at the moment the blow began to be felt the motor truck and the motor bus also came upon the scene, and their influence is naturally the stronger in sections where population is more dense and short haul traffic most plentiful.

If Canadian railways have suffered from this competition to a degree that impairs their future, so have their United States contemporaries. The railway problem is not exclusively a Canadian problem by any means. It is equally a Canadian fact that will have to be solved by our neighbors. In both countries a continuance of the present trend of the motor for railways would be the fate that has overtaken the Wabash.

THE SURPLUSES ARE DWINDLING

The director of economics of R. G. Dun and company, in a message to creditmen, says: "Early business statements indicate lower inventories, recoverables and liabilities than for any time during the past ten years. It is reasonable to conclude that January statements will show the best liquid condition since 1921. This is an essential forerunner of business recovery."

This was written with particular reference to the United States. But conditions in Canada are in many respects comparable, and more or less so throughout the world. The depression was in part brought about by the accumulation of huge surpluses of commodities of many kinds. The world markets were glutted with things people did not want or could not pay for. Whether the trouble was that the things were not wanted or that they could not be paid for, the result was the same. Sales ceased, and production had to slow down.

There have been two years of diminished and diminishing production. But the accumulation of surpluses has been going on, though at a reduced rate, while luxuries have been slaughtered at bargain prices. That the surplus has been melting must be supposed, while retail stocks have been cut down and kept down to the minimum.

The output of manufactured goods has been only a fraction of former years. Lumbering and mining have been marking time. There has been a real statement of farm practices with a view to lessening the world surplus of wheat. The curtailment of surplus has been a real statement of farm practices with a view to lessening the world surplus of wheat.

We must by this time be nearing the point where reduced surpluses invite a renewal of production in larger volume. This may not come with a rush, and cannot come with uniformity in all branches of production. But the surplus is melting, and the surplus is melting, and the surplus is melting.

SENIOR TRIUMPH OVER VARSITY IN EXCITING HOCKEY TILT

Canadians and Poolers Score Victory in Junior Exhibition Games

GOOD HOCKEY SEEN IN BOTH SUNDAY TILTS

Cumtels Beat Scams, and Poolers Defeat Forty-Niners

A series of fast-breaking attacks that produced one of the finest exhibition games in the history of junior hockey here for a long time featured the two-game exhibition program put on at the arena yesterday afternoon by the four clubs of the Junior League.

Canadians emerged on the long end of a 2-1 count over the Scams early in the first period, a lively encounter in which the result was in doubt up to the last gasp. While Harry Staley Poolers played a complete reversal of form to bury the Forty-Niners under an avalanche of goals, the second battle too.

FINE COMBINATION
In sharp contrast to the opening game last week in which team play was lacking, the game yesterday afternoon, which was played on the surface, featured a fine combination of both team and individual play.

The Canadian-Scams engagement appeared to be the more interesting of the two, as the Scams were expected to play a more aggressive game than the Poolers.

TRADERS MARK TIME, VALUES HOLD GROUND

Canadian Press
WINNIPEG, Man., Dec. 7.—Traders marked time in the wheat market today. In one of the most uninteresting sessions in weeks, values held steady, usually to close 1/4 to 1/2 lower than Saturday's close.
December closed at 60 1/2. May at 61 1/2 and July 61 1/2 to 62 1/2.
Traders seemed content to sit back and await new developments. Values held firm due to a lack of offerings. Export business worked over the week-end.
Basis for the last week offered for all sources totaled only 1,300,000 bushels, one million less than the previous week. Of this amount, Canada and the United States furnished 1,100,000 bushels.
Weather reports from the Argentine stated that the harvesting was still being retarded in central district, but most of this area was not yet in today's trade.
In domestic trading, fear of the cash wheat and coarse grain sections, spreader price, little changed at all today's close.

\$ DOLLAR DAY AT EATON'S \$

A One-Day Event Bringing Unusual Opportunities to Gift Shoppers. EATON'S Christmas Dollar Day, Tuesday, December 8th

EATON'S STORE HOURS

8:30 a.m. to 5:30 p.m.

Daily Including Monday

Phone 9-1-2-0

MEN'S DENIM OVERALLS AND HEAVY WINTER CAPS

Bottom that your dollars will find better returns in a one-day event! Heavy denim overalls in semi-high back style. Well finished — five pockets, including hip and rule pockets — comfortable side facings and riveted buttons. 32 to 44. **\$1.00**

—Men's Wear, Main Floor

Men's caps cut from an extra weight of wool tweed. A practical gift for the outdoor man! There are various checks and novelty weaves in the popular darker shades. Linings of warm felt and snug fitting ear bands lined with warm fur. Sizes 6 1/2 to 7 1/2. **\$1.00**

—Men's Caps, Main Floor

THE GIFT SECRETARY

Office Second Floor Annex—at the End of the Drapery Section.

Phone 9-1-2-8-6

MEN'S BROADCLOTH SHIRTS WITH SEPARATE SOFT COLLARS

Smartly striped patterns! Durable fabrics! Fine tailoring! Small wonder we're so enthusiastic about these dollar shirts! It's a special purchase for this store-wide event—you'll pay at least a quarter more for such a shirt ordinarily. Tailored with precision of detail — the separate collar style, with one soft collar— **\$1.00**

—Men's Shirts, Main Floor

BOYS' LEATHER HELMETS

The leather aviation helmets that all the boys are wearing. Smoothly tanned, pliable leathers — brown or tan, and a few in black. Warmly lined with deskin cloth, and finished with adjustable chin strap and goggles. Sizes 6 1/2 to 7 1/2. **\$1.00**

DOLLAR DAY SPECIAL

—Boys' Wear, Main Floor

MEN'S BETTER TIES IN AN 8:30 ATTRACTION

You'll shop around considerably before you'll find smarter, better quality ties at a dollar! We know because we've tried! The newly smart novelty effects with silk linings — others have bordered designs. Beautifully tailored — non-creasing wool linings. **\$1.00**

—Men's Ties, Main Floor

PULLOVER SWEATERS

The sort of sweaters younger boys like to wear to school instead of a suit coat, or beneath one. There's in popular V-neck style — knit of all wool yarns in bright jacquard patterns. Some are "sweater" — most of the perfect quality that suggests them as good-looking gifts. Sizes 6 1/2 to 7 1/2 — 24 to 32. **\$1.00**

—Boys' Sweaters, Main Floor

SPECIAL! WORK SHIRTS

On a page of outstanding values these work shirts are worthy of special mention. Recently cut of heavy covert cloth, navy drill or moleskin. Grey shades and navy. Sizes 14 1/2 to 17. **\$1.00**

—Men's Shirts, Main Floor

LOOK! EXCEPTIONAL VALUES IN MEN'S SOCKS FOR DOLLAR DAY

Socks as smart looking and as well made as many we've seen and considered good value at 50c the pair! Perfect quality — the sort you'll like to give for gifts — and that you're hoping to receive in generous quantities on Christmas morning. Soft wool yarns are interwoven with silky rayons that make a pleasant weight, smart patterns, and a non-shrinking durability. Sizes 10 to 11 1/2. A feature special for Tuesday! **\$1.00**

3 Pairs \$1.00

—Men's Socks, Main Floor

MEN'S HOUSE SLIPPERS—BUCKSKIN, KID OR FELT

A trio of favorites in comfortable slippers for a man's lounging hours. There's a buckskin slipper in moccasin-like style — lined with red and painted with a bright Indian design. Then a kidskin style with an edging of bright patent. And an ever-popular sort in soft felt with inner soles of felt and outer soles of the leather. Sizes 6 to 11. **\$1.00**

DOLLAR DAY SPECIAL

MEN'S BLIZZARD STYLE RUBBERS

A slightly imperfect quality allows the low price on these rubbers — nothing that will affect the wearing qualities or the warmth! They're heavy jersey cloth, fleece lined and with thick soles of rubber. Sizes 6 to 11. **\$1.00**

DOLLAR DAY SPECIAL

MEN'S RUBBERS, EXTRA HEAVY SOLE

The heavy soles are a special feature on these durable rubbers. Blizzard style, with the high front flaps, they're made of shiny black rubber—light in weight but comfortable. Thick rolled edge soles. Sizes 6 to 11. **\$1.00**

DOLLAR DAY SPECIAL

—Men's Footwear, Main Floor

SAMPLE SPATS

A maker's clearaway of spats—well-made in good quality box cloth—fawn, brown and grey. Men's sizes. **\$1.00**

DOLLAR DAY SPECIAL

—Main Floor

MEN'S HANDKERCHIEFS

INITIALED SQUARES

Generously sized squares, in snowy linen. The borders are wide, and neatly hemmed. The corner initials are neatly done. Come while there are still plenty of "M's". **\$1.00**

DOLLAR DAY SPECIAL

FINE LAWN

A large size — the lawn self and fine — finished with sporty striped borders. **\$1.00**

DOLLAR DAY SPECIAL

IRISH LINEN 'KERCHIEFS

Plain in texture — just and sure — the sort of kerchiefs every man likes. Wide half-inch borders, neatly hemmed. **\$1.00**

DOLLAR DAY SPECIAL

—Men's Handkerchiefs, Main Floor

MEN'S GLOVES

Lined Capeskin

Such value! We cannot promise to repeat it again this season — and in time for gift giving it's nothing short of extraordinary. Soft, supple capeskin in grey, tan or brown — smart in appearance, and comfortably in, with soft fleecy linings. Sizes 7 1/2 to 10. **\$1.00**

DOLLAR DAY SPECIAL

—Men's Gloves, Main Floor

OUTSTANDING VALUE! EXTRA WEIGHT SERVICE SILK HOSE

Do you like the luxurious richness — the smartness — the added durability of heavy texture service silk stockings? These have an extra strand of silk more than usual in "heavy" service stockings — and a flawless loveliness of finish. Dollar Day offers them at a pricing, nothing short of extraordinary. Colors and sizes are offered in wide array. Full fashioned — panel heeled. 8 1/2 to 10. **\$1.00**

DOLLAR DAY SPECIAL

—Hosiery Section, Second Floor
